(backend)

## Languages

English (basic communication:  
reading docs, teamwork)

## Reference

Hoang Manh Cuong | SEO  
Dexterhoang FX Fintech Co., Ltd.

## Career Objective

Frontend Developer with a strong foundation in ReactJS, JavaScript (ES6+), and TailwindCSS, experienced in building responsive web applications integrated with REST APIs. Skilled in UI/UX design, performance optimization, and CI/CD deployment. Additional knowledge in Django/Python backend, enabling efficient collaboration in fullstack environments. Aspiring to become a specialized ReactJS Developer, contributing to large-scale web projects.

## Experience

### DevOps Intern

03/2024 – 07/2025

#### Dexterhoang FX Fintech Co., Ltd.

- Deployed & managed open-source applications for company collaboration and operations.
- Website administration: operated & maintained two e-commerce websites (BountySneakers and BountyMatrix), optimized performance & security.
- Infrastructure & servers: worked with VPS, configured & managed services on Ubuntu Linux and Arch Linux.
- Tools & platforms: proficient with Docker, Nginx, Apache, deployed systems on DigitalOcean, optimized DNS/CDN with Cloudflare.
- Network & security: configured and monitored networks using Winbox (MikroTik RouterOS).
- CI/CD support: integrated Docker deployment pipelines, increasing stability & minimizing downtime.

## Projects

### Shop Sneaker

03/2024 – Present

#### Shop Sneaker – Fullstack E-commerce | ReactJS + Django

- Built an e-commerce application with ReactJS + TailwindCSS frontend and Django REST backend.
- Features: homepage, product catalog, shopping cart, checkout (responsive design).
- Integrated backend API with Axios, implemented email verification & account management.
- Optimized UX with lazy loading, pagination, and checkout form validation.

### Portfolio Website

04/2024 – 5/2025

#### Portfolio | ReactJS + Django

- Designed a mobile-first interface with dark/light mode and bilingual support (English – Vietnamese).
- Frontend: ReactJS + TailwindCSS, Backend: Django REST.
- Integrated CMS through Django Admin.
- Deployed with Docker and Heroku, set up CI/CD pipelines.
